

PRESIDENT HAD MANY VISITORS

All Roads Lead to Oyster Bay in the Summer Time.

KEEP MAKES HIS REPORT

PRINTING OFFICE SCANDAL SOON TO BE AIRED.

Oyster Bay, L. I., Aug. 16.—President Roosevelt entertained at luncheon today Baron Henelmüller, the ambassador of Austria-Hungary; Senator Dryden, of New York; James M. Beck, formerly assistant attorney-general of the department of justice; Charles H. Kepp, assistant secretary of the treasury; and Robert Bridges, the author and magazine writer.

Ambassador Henelmüller desired to take up with the president a matter concerning immigration, which is pending between this country and Austria-Hungary.

Senator Dryden and Mr. Beck are here to discuss insurance problems with the president. The former is president of the National Insurance company, and the latter one of the attorneys of the Equitable Life Assurance society.

Assistant Secretary Kepp, chairman of what is known as the Kepp commission, appointed by the president to inquire into the organization, personnel, system of accounts, methods of correspondence and purchasing of supplies and other matters pertaining to the printing office, came to Oyster Bay to lay before the president the result of the commission's inquiry into the affairs of the government printing office. The inquiry was conducted with special reference to the printing of a contract for the purchase of twenty-two type setting machines. When it was announced that the contract had been let to the Lanston company, the officials of the Mergenthaler company made a protest to President Roosevelt. He directed that the contract be held up until the whole subject could be investigated and then gave directions to the Kepp commission to conduct the inquiry. The investigation occupied many days, much testimony being taken. The conclusions of the commission are contained in the report filed today by Commissioner Kepp with the president.

WYOMING RANCHMEN LOOKING SIDWAYS

(Special to The Herald.)

Cheyenne, Wyo., Aug. 16.—Residents of this section are on the anxious seat as a result of the mysterious visit of a special agent of the interior department. One ranchman volunteered the information that the looking sideway, frauds and illegal fencing of government land, and something's going to drop mighty sudden. "And this is about all that can be learned. The inspector may be on an entirely different mission to this section, but the gully will naturally be on the money seat until some time has elapsed after his departure. It is said that probably 90 per cent of the ranchmen in Wyoming are violators of the law in that they have fenced government land to which they have no right or title.

INVITED TO HONGKONG.

Manila, Aug. 16.—The governor-general of Hong Kong has invited Secretary of War Taft and the members of his party to attend a banquet there. The members of the party have answered that they will stop one day at Hong Kong and one night at Canton.

Miss Alice Roosevelt is undecided as to whether she will visit Peking, and it is believed that she is awaiting her father's answer to the invitation extended her to visit that place.

INDIGNANT MERCHANTS.

Panama, Aug. 16.—The era of commiseration in the canal zone by the isthmian and commission is ending a feeling of great resentment among Panama and Colon merchants. An indignation meeting was held here this evening and an appeal will be made to President Amador to intervene in the matter. It is claimed that Secretary Taft while here last November agreed not to establish commissaries in the zone.

ARMY DESERTIONS.

St. Paul, Aug. 16.—A wholesale desertion of privates from the 3rd regiment was reported today when it was announced that about fifty privates had quietly left the post without permission. The cause of the desertion is said to have been dissatisfaction on the part of the men to work on the new rifle range.

STRIKE AT VIENNA.

Vienna, Aug. 16.—The workmen in all the factories went on strike today. Their attitude is threatening.

WOULD RECLAIM UTAH LANDS

Kershaw Irrigation Project Is to Employ Many on Reservation.

CAN WATER LARGE AREA

DIVERTING WORKS NEAR ROCK CREEK PLANNED.

Byron S. Kershaw of American Fork claims his irrigation scheme will not only be of great value to settlers on the Utah reservation by reclaiming arid lands, but because the scheme of construction will give employment to the settlers and thus assist them in getting a start. In his application for fifty-one second feet of water from the Duchesne river, Mr. Kershaw says he proposes, by means of an irrigation ditch twenty miles in length, including laterals, to insure an even flow of water that will give settlers on lands, which he particularly describes, an even show with those on the river bottom. By constructing this canal, many acres will be reclaimed, which could not be reclaimed by individual settlers, owing to the great expense of construction and the lack of organization of the community of strangers thrown together as settlers, he says.

In his application filed in the office of State Engineer Caleb Tanner, Mr. Kershaw says he proposes to divert the water at a point where the western boundary of township 2 south, range 3 west, crosses the river. This places the diverting works near the mouth of Rock creek, almost at the geographical center of the Utah Indian reservation.

Character of Soil.

Mr. Kershaw proposes to irrigate soil which he describes as sandy loam and fine gravel, with a subsoil of sandy loam and gravel. The area proposed to be reclaimed by the scheme lies in the immediate vicinity of the proposed dam and is particularly described as follows: North half and northeast quarter of southeast quarter, section 36, north half of north half, section 25; all section 30; west half, section 21; north half of northeast quarter, section 31; southwest quarter of northeast quarter, section 31; township 3 south, range 4 west; east half of south half of northeast quarter, northeast quarter and northwest quarter of southeast quarter, section 36; west half of section 25 and east half of southwest quarter, section 25; township 3 south, range 5 west; northwest quarter of section 6, township 4 south, range 4 west; and east half of northeast quarter, section 1, township 4 south, range 5 west.

An application filed by the Silver Shield Mining & Milling company calls for three second-feet from the Silver Shield tunnel, about 2,000 feet southwesterly from the northeast corner of section 25, township 3 south, range 3 west, Salt Lake meridian. Plume, headgate and canal, which will be provided for the water to be used in the West Mountain mining district.

THEY VIEW WITH ALARM.

Beneficiaries of High Tariff Protest Against Revision.

San Francisco, Aug. 16.—At a meeting today of the board of directors of the Manufacturers and Producers' association of California, the following resolution was adopted:

"Resolved, by the board of directors of the Manufacturers and Producers' association of California, that we view with alarm the prospect of any changes in our tariff as dangerous to the industries of our state and that we urge upon congress not to make any alterations in our tariff so that the prosperity of our great country may not be interfered with."

HORSFORD'S ACID PHOSPHATE

Cures Indigestion

Nature's remedy for obstinate indigestion, nervous dyspepsia, headache and depression.

MAY LEAD TO TROUBLE.

Fex, Morocco, Aug. 16.—The sultan has decided to accept the demands of the French minister for the payment of an indemnity and the release of the Algerian-Si-Chenks, who was arrested in consequence of local troubles. The sultan's decision is said to have been a relief to important developments.

HANGED BY A MOB.

Lake Cormorant, Miss. Aug. 16.—Henry Young, a negro, who shot and killed Ed. J. Parry on the Bass plantation near Lake Cormorant last Sunday, was tonight and at the scene of the crime hanged by an armed mob.

SCHEDULE IS NOW OUT

Denver-Los Angeles Tourist Service in Operation Over Salt Lake Route.

The Rio Grande road has issued its schedule for tourist sleeper service from Denver through Salt Lake to Los Angeles over the Salt Lake route. The new service is already bringing many passengers through Salt Lake. Sufficient stopover time is given by the service to enable tourists to see something of the city.

Following is the schedule:

West Bound.

Leave Denver at 9:30 a. m., first day, Denver & Rio Grande No. 1.
Leave Colorado Springs at 12:06 p. m., first day, Denver & Rio Grande No. 1.
Leave Pueblo at 1:35 p. m., first day, Denver & Rio Grande No. 1.
Arrive at Salt Lake at 1:35 p. m., second day, Denver & Rio Grande No. 1.
Leave Salt Lake at 3:30 p. m., second day, S. P. L. A. & S. L. No. 1.
Arrive at Los Angeles at 7:00 a. m., fourth day, S. P. L. A. & S. L. No. 1.

East Bound.

Leave Los Angeles at 7:30 p. m., first day, S. P. L. A. & S. L. No. 2.
Arrive at Salt Lake at 6:35 a. m., third day, S. P. L. A. & S. L. No. 2.
Leave Salt Lake at 3:50 p. m., third day, Denver & Rio Grande No. 2.
Arrive at Pueblo at 12:35 p. m., fourth day, Denver & Rio Grande No. 2.
Arrive at Colorado Springs at 2:00 p. m., fourth day, Denver & Rio Grande No. 2.
Arrive at Denver at 4:20 p. m., fourth day, Denver & Rio Grande No. 2.

Coloradoans in Salt Lake.

Nearly 200 persons from southern and western Colorado are in Salt Lake for a ten days' outing. It is the annual excursion on from San Juan points over the Rio Grande road and this year it brought an unusual number of Coloradoans, some of whom will look about the city with a view of locating here or across the state. The visitors are stopping at various hotels. Nearly all of them will remain the full ten days.

ORDERS AS TO STUDENTS.

Short Line Declares Against Allowing Them Brakemen's Responsibility.

Two general bulletins for the guidance of the employees on the Oregon coast line system have recently been issued, each intended to reduce to a minimum the chances of accidents through carelessness or inefficiency of employees. One of the bulletins prohibits the employment of student brakemen and giving them the responsibility of the final acceptance of the cars. The other bulletin, issued in a short time should an unusual number of extra men be needed, putting the extra men on extra trips as full-fledged brakemen. This practice is to be discontinued and no brakeman is to be given responsibility or wages until he has had ample experience to fit him for the work.

Another order provides that operators must not permit the brakemen of each train order instead of two as heretofore. The extra order is for the brakemen to be delivered to the head brakeman at the same time that the engineer receives his copy. The head brakeman will, after reading it, pass it to the rear brakeman. If either of these men notice any discrepancies in the orders or think that they are not being read, they are to call the attention of the conductor to the circumstance.

Railroad Notes.

S. M. Shattuck, traveling passenger agent of the E. & C. O. of the Pacific in Denver, is in Salt Lake City.

W. H. Bancroft, vice president, and general manager of the Oregon Short Line, returned yesterday from a visit to his ranch.

Mrs. S. K. Hooper, wife of the general passenger agent of the Rio Grande road, passed through Salt Lake yesterday on her way from the coast to her home in Denver.

The Mutual Improvement association from the Jordan stake sent in pleasure seekers to the number of 175 on the Salt Lake route yesterday. The visitors spent the day at the lake and other resorts.

Three hundred persons took advantage of the Keith-O'Brien employes outing to visit the canyon yesterday. The Rio Grande road's excursion train left yesterday morning and returned last evening. The excursion was of objective point and a day was spent in the shade among the rocks by the river.

Miss Myrtle Moore, sister of J. Lloyd Moore, district passenger agent of the Salt Lake route, underwent an operation to relieve a kidney ailment at the S. S. hospital Tuesday. Dr. A. J. Hoern performed the operation which was entirely successful. Yesterday Miss Moore was recovering nicely from its effects.

WAR GOD FOUND IN LOFTY CAVERN

Continued from Page 1.

a big chamber, hollowed out by erosion. By his torch he saw stone cooking utensils and tools on the cavern floor. At one end of the chamber was this war god. He examined the figure and afterward told me of it.

We went together to the cliff. The man made the ascent and lowered the image to the foot of the precipice. It was brought to me in Salt Lake by wagon. During the trip the team ran away and the head was broken from the body.

This is different from anything the cliff dwellers ever made. It is carved from stone. Their relics are clay pottery. This has been made with good tools, and there were no signs of metal tools in the cave. Nor was the cavern anything like the homes of the cliff dwellers. It is a natural cave. The last and arrow or spear show that the image was that of some war god. I believe it is fully a thousand years old. I shall ship it to Washington to Dr. Merrill. The image was found July 15 last. I had been down in that country ever since March.

WORTH A VISIT.—The new china store of Davies & Co., 39 South Main, will open Saturday, August 19. The latest designs and shapes in chinaware, glassware, cut glass, Japanese goods, Russian brasses, bric-a-brac etc. Everything marked in plain figures. Just drop in and look around.

INCOMPETENTS RETIRED.

St. Petersburg, Aug. 16.—By imperial ukase Vice Admiral Kruger has been placed on the retired list. Commander Gazevitch of the battleship Georgi Polodnostz and the commander of the transport Prout, on both of which vessels mutinies occurred recently, have also been retired.

Can You Sleep?

If not, and you are growing nervous, despondent and run-down, you need Palmo Tablets. They induce natural slumber, build up the nervous system, and make you feel and look years younger. 50 cents. Book Free. Address The S. R. Fell Co., Cleveland, O. For sale by F. J. Hill Drug Co.

CAN EASILY ESTABLISH AN ALIBI

Tom Caldwell and Bob Fraughton, Under Arrest For the Murder of Cashier Middaugh at Cody Last Winter, Will Probably Be Released.

(Special to The Herald.)

CHEYENNE, Wyo., Aug. 16.—Judge W. S. Metz passed through here yesterday with a written promise of the county attorney of Big Horn county that he will dismiss the charge of murder against Tom Caldwell and "Bob" Fraughton, the two men arrested in Utah last winter for the assault on the body bank and the murder of Cashier L. O. Middaugh, and thus will probably end the chase after the outlaws who committed that crime last November, and for whose apprehension rewards of more than \$3,000 still stand.

Fraughton and Caldwell, who were employed in the mines at Atlantic City at the time the robbery was committed, were arrested at the request of Attorney W. L. Walls of Cody, who was present at the time of the descent on the bank.

YIELDED SEVEN OF THE ARTICLES

Continued from Page 1.

Japan, too, will have her claim against the Peking government for the restoration of the road after it was destroyed by the Russian army and the building of the bridges and the change of the gauge. It is believed these two questions are left by the article for each country to arrange. It is the annual empire. Russia will also have to settle a traffic arrangement with China as the two roads to forego "the cost of the world's best highway from Europe to the Pacific and upon the operation and cooperation of the two roads their future success will depend. It is suggested that it was this very question of consulting China which caused the postponement of the final acceptance of this article, but there is nothing substantial to support the suggestion.

Question Was Complicated.

The question is complicated and it required all of the morning and the major portion of the afternoon session to come to the agreement "in principle." It can be stated that the Chinese Eastern road has been under the administration of the minister of ways and communications, Prince Hsiao-shan, but that several rumors are being spread by the Washington government, including the Washington government, are bringing pressure to bear upon Japan to force the cession of the war and content herself with such other compensation as she can secure out of the railway of the Russian government. The Associated Press can state authoritatively that neither the question of making Vladivostok an "open port" or the American right of international waterway, as some papers have stated, is included in the Japanese demands. As developments have demonstrated were given by the Associated Press the day they were submitted by Japan.

Warships Are Wanted.

Japan will make a stiff fight for the possession of the interned Russian warships.

Mr. Denison, the American legal adviser of the Japanese mission, spent most of the day in his office looking up the precedents on the subject. Japan is exceedingly anxious to obtain these ships and the Russian mission will apply the indemnity in case one-half has been received to the increase of the navy. The indemnity will be used for paying off financial obligations incurred during the war, the granting of pensions and the development of the Japanese educational system. To replace the losses to the fleet incurred in the war, and to maintain the fleet up to a standard of strength and efficiency sufficient to defend herself Japan needs additional battleships and cruisers. If she obtains all of the Russian ships, it is estimated in neutral harbors and succeeds in raising a number of those sunk in the sea, she will have saved the necessity for the present plan of a large naval budget for construction. The London government is strongly in favor of Japanese claims, and Japan seems to have set her heart upon the surrender of the ships by Russia.

Muddy Complexions

Black Heads
Pimples and Eruptions
CAN BE CURED

They are due to impurities in the blood and it has been found that a course of IRVING'S BUCHU WAFERS, the well known Dr. Kelley and Dr. Rouchefoucauld, was seriously injured to in an automobile accident.

SOLD BY BEST GROCERS.

M. Witte has provisionally arranged to go with Baron Rosen to Magnolia on Sunday to spend the day with Baron Rosen.

HAVE STRENUOUS TIME.

Secretaries at Portsmouth Beginning to Show the Strain.

Portsmouth, N. H., Aug. 16.—Both Japanese and Russian plenipotentiaries were late for dinner tonight, having stopped at the cottage of Mrs. Pearce for a cup of tea and to apologize for not having reached there in time for a formal reception earlier in the afternoon.

The weather this afternoon was all that could be desired and the envoys greatly enjoyed their ride home.

There was an informal dance given in the ball room this evening with several of the Japanese in attendance.

Although the plenipotentiaries generally finish their session between 6 and 7 o'clock, the secretaries, whose duty it is to prepare the protocols, are at work until 9 o'clock in the morning. As they must be up before 9 in the morning in order to reach the navy yard by 9:30 they are beginning to show the strain.

The mosquito pest has not yet returned, but in case it should, the plenipotentiaries and M. Witte, if they follow the gratuitous advice they have received, will know how to cope with the invaders. Next to the sea, mosquitoes are M. Witte's most dreaded enemy.

M. Witte's Mission.

Envoy Has Other Objects in View Besides Making Peace.

St. Petersburg, Aug. 16.—It is explained to the Associated Press this afternoon that Mr. Witte's mission, in addition to undertaking peace negotiations, was for the purpose of correcting certain mistaken impressions in America regarding the attitude of the Russian government on the Jewish question. He is to explain, too, the government's proposals for reforms, a committee of ministers, after careful consideration, having formulated a project for reform which it has been decided to submit to the proposed national assembly for final action.

M. Witte, as president of the council of ministers, is familiar with the Russian government's intentions regarding the Jews and has also a close personal knowledge of the Jewish question in all its details.

Prominent Jews here, however, are pessimistic regarding the outcome of the promised reforms and have little

DAILY SHAMPOOS

With Warm Water and

Cuticura SOAP

And weekly dressings of Cuticura, purest and sweetest of emollients, at once stop falling hair, remove crusts, scales, and dandruff, destroy hair parasites, soothe irritated, itching surfaces, stimulate the hair follicles, loosen the scalp skin, supply the roots with energy and nourishment, and make the hair grow upon a sweet wholesome, healthy scalp, when all else fails.

Cuticura Soap combines delicate medicinal and emollient properties derived from Cuticura, the Great Skin Cure, with the purest of cleansing ingredients and the most perfect of hair restoratives. It is sold in two forms—namely, a medicinal and toilet soap for \$50. Price, Drug & Chem. Corp., New York, Boston.
